Education

Georgia Tech / M.S. H.C.I.

College of Computing Dean's List
Distinguished Masters Student

University of Georgia / B.B.A. Marketing
B.S. Psychology

Achievements

Figma Community / Active Contributor

1000+ uses of my Figma
Community Resources

Design Educator / Active Speaker

Speaker at World Information Architecture Day in Atlanta, GA, the Code for America conference in D.C., and the Software Factory Conference in Austin, TX.

Experienced Designer / Active Designer

I have worked on over 15 applications. Everything from the Jamba Juice mobile app to AI tools to Brain Computer Interfaces.

Timeline, Hobbies, & Skills

Timeline
2017-2019: Freelance Web/UI Designer
2019-2021: Masters Program in HCI
2020-2026: Full-time Product/UX Designer

Hobbies
Cyanotpye · Endurance Running · Gardening · Illustration · Painting · Sailing · Travel

Skills
AI/ML Interfaces · Data Visualization
Design Systems · High-Fidelity UI
Interaction Design · Product Thinking
Prototyping Research Synthesis · Systems Design · User Research · UX Strategy
Wireframes · Workshop Facilitation

Experience

CTRL + Y / Senior Product Design Lead

OCT 2024 - Current Austin, TX

As co-founder and lead product designer for CTRLY's Bishop, I designed an **AI-driven search and rescue** app that detects humans in drone footage up to **3,700× faster** than manual methods. I led Figma **prototyping, user flow mapping, and Design System.**

Apple / UX Designer

MAY 2025 - OCT 2025 Austin, TX (contract)

Designed Widget Library experience, improving discoverability, usability, and **AI-driven workflows** for **data-rich Apple enterprise manufacturing tool.** Led application-wide **design consistency** initiative, unifying visuals, interaction patterns, and UX behaviors.

VMware by Broadcom / Senior Product Designer

SEP 2022 – April 2025 Austin, TX

Led UX design for Tanzu client applications while mentoring designers. Created **high-fidelity prototypes and mockups in Figma** to accelerate delivery of **user-centered** solutions. Designed ERP warehouse management app that **saved US government > $4M.**

Google / UX designer

JAN 2021 – MAY 2021 Atlanta, GA (Internship)

Led design for the **Google Codesign** (component based prototyping tool) asset marketplace. Led a 3-day Google Design Sprint, delivering **wireframes, mockups, and a user-centered design** based on insights from testing and design reviews.

US Air Force / Product Designer

JUNE 2020 – SEP 2022 Atlanta, GA

Designed a mission planning application used in high-stakes scenarios such as air evacutations and Haiti Earthquake relief.

Developed **user flows, mockups, prototypes, and design system components** based on deep user research and pain point analysis, driving **consistency across connected systems.**

LEO: Mental Health AI tool / Lead UX Designer

December 2019-May 2021 Atlanta, GA

Spearheaded research and design for an app to **improve mental health in first responders,** conducting usability studies, co-designs, and user testing to develop an **AI voice chat application.**

Georgia Tech / UX Researcher and Designer

AUG 2019 – MAY 2021

As a full-time Research Assistant for R&D projects within the Georgia Tech GVU Prototyping Lab and Usability Lab, I facilitated **usability testing** sessions and **manufactured chips, systems, and prototypes.**
